

How to Create a GoogleID

The Teligent®IP Interactive Solution uses SSO (single sign on) authentication using Google ID's. This guide will walk you through how to setup a Google ID using your existing email address

Step 1.

Type the following URL in a browser:

https://accounts.google.com/signup/v2/webcreateaccount?hl=en&flowName=GlifWebSignIn&flowEntry=SignUp

Step 2.

Enter in your first and last name.

Select the option to "use my current email address instead" and enter in your full existing email address.

Select a password. You may use your existing password or create a new one.

Click "Next"

First name	Last name		
Username		@gmail.com	9
You can use letters, n	umbers & periods		
ose my current en	an address instead		
Password	Confirm passwo	rd 🔇	One account. All of Goog
Use 8 or more charac symbols	ters with a mix of letters, numbe	rs &	working for you.
Sign in instead		Next	

Verify your email address

Enter the verification code we sent to orders@teligentip.com. If you don't see it, check

your spam folder.

Enter code

Back

Step 3.

Next, Google will request you enter in an authentication code, should be in your email box. If you do not see the email, check your SPAM or JUNK folders.
