A message from the co-founder, Richard W. Dubois:

"One of TeligentIP's founding principles is customer focus.

We do everything in our power to ensure that every single customer has a great experience every step of the way.

When it comes to State of the Art voice services, there are many pieces of the puzzle, but we strive to unify the pieces and simplify the process.

We expend a great deal of resources to ensure that we provide the latest technology and applications available for our customers."

Why Choose Teligent?

1

Customized, tailor made solutions. Not every business fits inside the box, so we pride ourselves on thinking outside of the box to create a communications solution best fit for your customer.

2

Our implementation is one of the fastest in the industry. The first impression of new service provider is with implementation. Count on a team that can get it done, quickly and correctly.

3
